Dance

The most important aspect of your portfolio is your photographs because they say everything about you- your professionalism, skills and attitude. Whatever you are applying for- you never get a second chance at a first impression.

I am a trained dancer and passionate about dance photography- so you're in good hands! And I like to keep things simple- yay!

the session

Because I am crazy about dance, I provide portfolio photography sessions at a reduced rate throughout the year. Too many dancers get ripped off by photographers who only want to make money. But more importantly... dont know anything about dance.

I take into consideration how you want to promote yourself as well as exploring your versatility. I have a keen eye for technique and line so I will make some suggestions, and I know a few tricks to make you laugh and have some fun. And as I work in digital format you're able to see the results immediately.

I use state of the art mobile studio lighting and backdrop along with digital development in order to produce a fresh and dynamic style. Your session includes your favourite dance positions and steps, some experimentation (some of the greatest shots are achieved this way) and outfit changes.

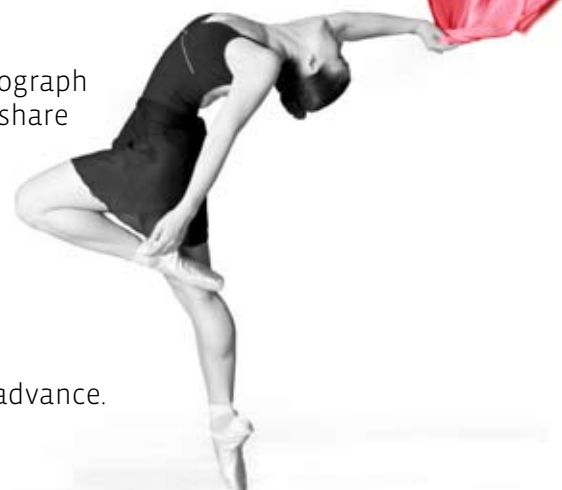

you get what you need

After the shoot I spend time individually preparing each photograph and provide you with a private on-line album so that you can share them with family and friends all around the world.

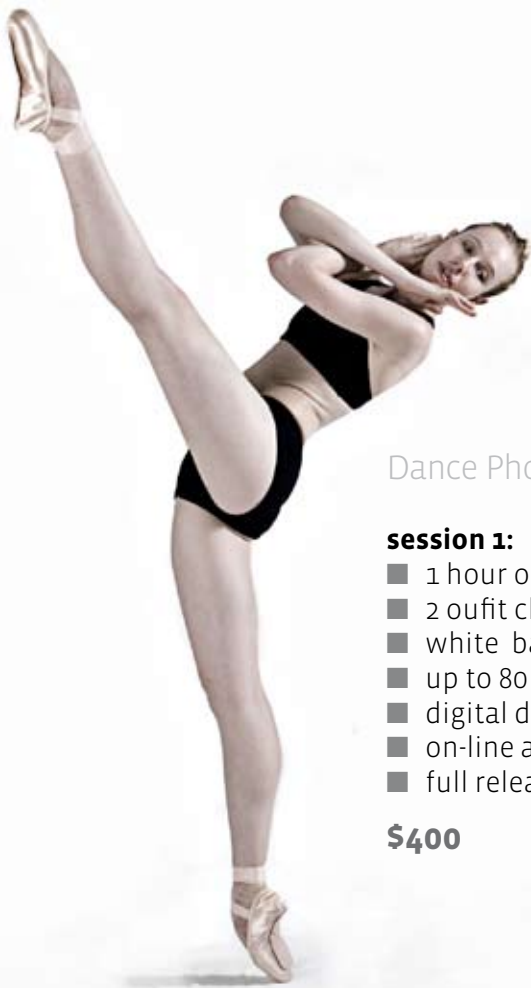

Your photographs are then supplied on disk as high resolution files ready for printing.

And you receive them in both colour and black & white!

Turn around time is only 10 days. If you require photographs for a particular deadline I can help if you let me know well in advance.
